1981-82 through 1986-87 fiscal years

Submitted by the
CAPITAL IMPROVEMENT ADVISORY COMMITTEE
pursuant to Administrative Code Section 3.09

June 15, 1981

3 1223 06159 3894

CITY AND COUNTY OF SAN FRANCISCO

Office of the Chief Administrative Officer

TO: Mayor Dianne Feinstein and the Board of Supervisors

FROM: Capital Improvement Advisory Committee

SUBJECT: Transmittal of Annual Facilities Maintenance and Capital Improvement Programs

The annual report by the Capital Improvement Advisory Committee on the maintenance and improvement of public buildings and structures, pursuant to Section 3.09 of the Administrative Code, is herein submitted.

The report includes the Capital Improvement and Facilities Maintenance projects as approved by the Board of Supervisors for the 1981-82 budget, and a five-year listing of future maintenance and improvement projects. The report serves primarily as a source of needs identified by departments relative to the maintenance and improvement of the City's physical plant. The report will also serve as a preliminary guide for the development of 1982-83 budget requests.

The following table summarized the budget allocations approved by the Board of Supervisors for the fiscal year 1981-82 with comparative data for 1980-81.

Consolidated Comparative Table

Funding Category	1980-81	1981-82
General Funds	$ 2,856,365	$ 4,369,984
Gas Tax	597,500	289,235
Revenue	55,224,610	21,076,000
Special Funds	13,138,080	20,453,003
TOTALS	$71,816,555	$46,188,222

The Committee requests that all departments review carefully the five-year program recommendations contained in this report. Through this review process, important needs of each department can be addressed during the preparation of the 1982-83 budget to assure that the most efficient utilization of the City's limited fiscal resources is achieved.

Respectfully submitted,

Roger Boas

Roger Boas, Chair
Capital Improvement Advisory Committee

EXPLANATION OF SYMBOLS

General Priorities

A - ESSENTIAL:
An 'essential' rating is assigned to a project which is included in the budget year of the program only. The rating is assigned to a project which would implement a declared legislative policy, is critical to the health, safety and welfare of the general public, will resolve a critical operational deficiency or will resolve a critical physical condition of the physical plant.

B - DESIRABLE:
A 'desirable' rating is assigned to a project included in the first or second year of the program. The rating is assigned to a project which is important to the general convenience, operation or condition of the physical plant, but, because of its intent, purpose or proposed timing, the project is not critical relative to the operation or condition of the physical plant.

C - ACCEPTABLE:
An 'acceptable' rating is assigned to a project which would provide for a worthwhile improvement to the physical plant, but because of its purpose or scheduling of the proposed project, it is not critical or important when considered in relationship to other program requirements, need or the City's fiscal capabilities.

D - DEFERRABLE:
A ' deferrable' rating is assigned to a project which is without full documentation as to need, justification or submission of additional data.

H - HOLD:
The 'hold' rating is assigned to a project which should be held in abeyance pending consideration of Master Plan questions or the completion of a study.

Source of Financing

a - Ad Valorem Property Taxes or Sales Taxes

Gas Taxes and Road Funds
g - Gas Tax
e - 1.04 Cent Fund
s - Road fund

r - Revenues

n - Proposed Bonds

o - Other Sources
(e.g., bequest funds, federal or state subventions)

PROJECT IDENTIFICATION NUMBER

The project identification number (P.I.N.) is designed to apply to a particular capital improvement project and only that one proposal. Its purposes are: 1) to relate a specific project to the submitting department; 2) to identify the capital improvement program in which the project will first appear; 3) to identify the fiscal year (1st through 6th year) within that program when the department seeks funding; and 4) to indicate the departmental priority rating for that project on its first submission. In subsequent capital improvement program reports the same identification number will be repeated through all phases of the the project's development and execution. A new identification number would be assigned only if the scope of a project is changed substantially upon resubmission.

The project identification number consists of eight digits arranged in three major components as shown in the following example:

500.81.101

The first component, '500' in the example, is the budget index number assigned to the requesting department.

The second component, '81' in the example identifies the year (1981-82) the particular project was initially submitted. The present report covers six fiscal years between July 1, 1981, and June 30, 1987, and '81' appears as a constant for all initial submissions. Last year '80' was a constant for new submissions, and next year '82' will be the constant.

The third component, '101' in the example, consists of two elements without separation. The first digit, which may range from 1 to 6, indicates that fiscal year within the six-year capital improvement program when the requisitioning department asks that the project be initiated. The second element, '01' in the example, consists of two digits which reflects the departmental order of priority for projects in that particular fiscal year, whenever such a sequence is feasible. The lower this two-digit number may be, the higher the departmental priority that was assigned to the project on its first submission.

NOTES AND GUIDELINES

All projects are in conformity with the Master Plan except as noted.

Projects included in the Capital Improvement Program Report are approved in concept only.

Projects involving the acquisition of land or changes in sidewalk widths are subject to further review by the City Planning Commission.

Notes appearing in BOLD TYPE are policy statements approved by the City Planning Commission for inclusion in the Capital Improvement Program Report.

Projects which have previously been reviewed by the City Planning Commission for conformity with the Master Plan are identified by an individual Referral number, such as (R72.44) at the end of the project description.

All project costs shown in the program, unless otherwise noted, are in thousands of dollars.

The 'A' or 'essential' priority rating applies only to a project recommended for the first year of the program. Projects in subsequent years of the program will be re-evaluated as they move forward for inclusion in the budget year.

An appropriate general priority rating will be substituted for the designation 'hold' after further review of the proposal.

The assignment of a priority rating of 'essential' to a major capital improvement proposed for future bond financing is an endorsement only of the general concept of the proposal (City Planning Commission Resolution No. 6068).

NOTES AND GUIDELINES
Transportation Policy Group Review Criteria

The Transportation Policy Group (TPG), consisting of the Director of Public Works, the Director of Planning and the General Manager of Public Utilities, has adopted transportation policy criteria, as listed below, in order to evaluate transportation-related capital improvement and reconstruction and replacement projects. The intent has been to indicate the relationship between the City's transportation policies and expenditure for individual projects.

The City's transportation policies are continuously reviewed by TPG, which meets regularly to discuss policy and major projects in relation to policy. TPG established three broad categories of priority (highest, high, medium) for those transportation policy criteria likely to bear directly on capital improvements. The criteria were taken in most part from policies of the Transportation element of the San Francisco Comprehensive Plan; however, where the Master Plan is not specific or is silent, criteria were taken from the operating policies of the transportation operating department and other declared City objectives. TPG may propose additions or changes to these policy criteria as the needs of the City are accommodated or as the needs change.

There has been no attempt to 'rank' the criteria within each of the three priority categories, nor is the number of criteria met an indication of ranking. Therefore, there is an alphabetical rather than numerical index to the criteria (with each criterion being assigned a letter).

Each project in the Trafficways section of the Capital Improvement Program (CIP) and each project in the Municipal Railway section of the CIP has been evaluated in terms of these criteria. After each such budget year project in the CIP appears the identification letter(s) of the most relevant criterion (a) which the project was adjudged to have met (e.g.,TPG a).

POLICY CRITERIA

Highest Priority Criteria

a - Provides access by street or transit where no service previously existed when requested by those to be newly served, in order to provide more equal access to transportation facilities for all citizens.

b - Reduces danger to people and eliminates or reduces the cause of accidents to pedestrians, autos and transit vehicles.

c - Provides clearly needed maintenance for the existing street and transit systems, required to protect the public investment in existing transportation facilities.

d - Reduces auto-transit conflicts in favor of transit.

e - Improves transit operations for increased efficiency, reliability, decreased travel time, savings in money and manpower, decreased maintenance costs, and ease and convenience of transit use.

Highest priority Criteria (continued)

f - Diverts excessive traffic from residential streets.

g - Reduces congestion downtown.

h - Has a high level of community support while also fulfilling at least one other TPG-CIP policy criterion.

i - Is a portion of a larger project which has previously received legislative approval and is the City's 'local-share' commitment, or is necessary to complete or fulfill the objectives of an overall balanced transportation program; also must fulfill at least one other TPG-CIP policy criterion.

High priority Criteria

j - Expands mobility for the disadvantaged.

k - Reduces pollution and noise.

l - Improves pedestrian use, accessibility or convenience and/or the pedestrian, resident or commercial environment.

m - Supplements and/or intensifies existing transit service, particularly in the 'central' area.

n - Establishes easily identifiable transit 'centers', terminals and loading areas for convenient access and transfer.

o - Discourages non-recreational and non-local travel in and around parks and along shoreline recreation areas.

p - Develops transit to connect other major centers of activity with downtown.

Medium Priority Criteria

q - Provides transit service from residential areas to major employment centers outside the downtown.

r - Eliminates unnecessary cross traffic conflicts and improves traffic flow along major thoroughfares.

s - Provides for the role of the bicycle as transportation between and within major recreation areas, residential areas and major employment centers and for bicycle parking in conjunction with other parking facilities.

t - Increases parking for residents.

u - Increases parking for outlying neighborhood shopping areas.

v - Maintains other departmental facilities not directly part of the operating transportation system in order to preserve the public investment in these facilities.

FISCAL SUMMARY: PROPOSED BOND PROGRAM

CAPITAL IMPROVEMENT PROGRAM: 1981-82 THROUGH 1986-87

Because of the effect of Proposition 13 on the ability of a local public agency to use general obligation financing for bond items not approved by the electorate prior to July 1, 1978, the following schedule of capital improvements is shown as two separate categories. The first category represents those future bond proposals which can be paid from revenues for purposes of meeting debt service. The second category contains those future proposals which must be funded through other forms such as lease revenue bonds, or be subject to indefinite deferment. All costs are in thousands of dollars.

PROPOSED REVENUE BONDS

Date of Submission	Description	Amount
1983-84	Peak Power Generating Facilities	$ 100,000.0
1985-86	Port Improvements	30,000.0
	Total	$ 130,000.0

OTHER POSSIBLE CAPITAL IMPROVEMENTS

Date of Submission	Description	Amount
1983-84	Fire Department (AWSS)	$ 18,400.0
	Emergency Operating Center	13,300.0
	Subtotal	$ 31,700.0
1984-85	M. H. deYoung-Asian Art Museums	$ 15,000.0
	Street Improvements	$ 18,000.0
	Subtotal	$ 33,000.0
1985-86	Police Facilities	$ 35,300.0
	Heating and Cooling Plant	18,150.0
	Main Library	65,500.0
	Subtotal	$ 118,950.0
1986-87	Zoological Gardens	$ 10,000.0
	War Memorial Modernization	23,500.0
	Courts-Office Building	66,500.0
	Subtotal	$ 100,000.0
	Total	$ 283,650.0

1982-83 through 1987-88 fiscal years

Submitted by the

CAPITAL IMPROVEMENT ADVISORY COMMITTEE

pursuant to Administrative Code Section 3.09

September 15, 1982

CITY AND COUNTY OF SAN FRANCISCO

Office of the Chief Administrative Officer

TO : Mayor Dianne Feinstein and the Board of Supervisors

FROM : Capital Improvement Advisory Committee

SUBJECT: Transmittal of Annual Facilities Maintenance and Capital Improvement Programs

The annual report by the Capital Improvement Advisory Committee on the maintenance and improvement of public buildings and structures, pursuant to Section 3.09 of the Administrative Code, is herein submitted.

The report includes the Capital Improvement and Facilities Maintenance projects as approved by the Board of Supervisors for the 1982-83 budget, and a five-year listing of future maintenance and improvement projects.

The following table summarized the budget appropriation approved by the Board of Supervisors for the fiscal year 1982-83 with comparative data for 1981-82.

Consolidated Comparative Table

Funding Category	1981-82	1982-83
General Funds	$ 4,369,984	$ 6,313,268
Gas Tax	289,235	4,212,000
Revenue	21,076,000	27,384,650
Special Funds	20,453,003	10,690,356
TOTAL	$46,188,222	$48,600,274

The Committee requests that all departments review carefully the five-year program recommendations contained in this report. Through this review process, important needs of each department can be addressed during the preparation of the 1983-84 budget to assure that the most efficient utilization of the City's limited fiscal resources is achieved.

Respectfully submitted,

Roger Boas, Chair
Capital Improvement Advisory Committee

EXPLANATION OF SYMBOLS

General Priorities

A - ESSENTIAL:
An 'essential' rating is assigned to a project which is included in the budget year of the program only. The rating is assigned to a project which would implement a declared legislative policy, is critical to the health, safety and welfare of the general public, will resolve a critical operational deficiency or will resolve a critical physical condition of the physical plant.

B - DESIRABLE:
A 'desirable' rating is assigned to a project included in the first or second year of the program. The rating is assigned to a project which is important to the general convenience, operation or condition of the physical plant, but, because of its intent, purpose or proposed timing, the project is not critical relative to the operation or condition of the physical plant.

C - ACCEPTABLE:
An 'acceptable' rating is assigned to a project which would provide for a worthwhile improvement to the physical plant, but because of its purpose or scheduling of the proposed project, it is not critical or important when considered in relationship to other program requirements, need or the City's fiscal capabilities.

D - DEFERRABLE:
A ' deferrable' rating is assigned to a project which is without full documentation as to need, justification or submission of additional data.

H - HOLD:
The 'hold' rating is assigned to a project which should be held in abeyance pending consideration of Master Plan questions or the completion of a study.

Source of Financing

a - Ad Valorem Property Taxes or Sales Taxes

g - Gas Taxes and Road Funds
g - Gas Tax
e - 1.04 Cent Fund
s - Road fund

r - Revenues

n - Proposed Bonds

o - Other Sources
(e.g., bequest funds, federal or state subventions)

PROJECT IDENTIFICATION NUMBER

The project identification number (P.I.N.) is designed to apply to a particular capital improvement project and only that one proposal. Its purposes are: 1) to relate a specific project to the submitting department; 2) to identify the capital improvement program in which the project will first appear; 3) to identify the fiscal year (1st through 6th year) within that program when the department seeks funding; and 4) to indicate the departmental priority rating for that project on its first submission. In subsequent capital improvement program reports the same identification number will be repeated through all phases of the the project's development and execution. A new identification number would be assigned only if the scope of a project is changed substantially upon resubmission.

The project identification number consists of eight digits arranged in three major components as shown in the following example:

500.82.101

The first component, '500' in the example, is the budget index number assigned to the requesting department.

The second component, '82' in the example identifies the year (1982-83) the particular project was initially submitted. The present report covers six fiscal years between July 1, 1982, and June 30, 1988, and '82' appears as a constant for all initial submissions. Last year '81' was a constant for new submissions, and next year '83' will be the constant.

The third component, '101' in the example, consists of two elements without separation. The first digit, which may range from 1 to 6, indicates that fiscal year within the six-year capital improvement program when the requisitioning department asks that the project be initiated. The second element, '01' in the example, consists of two digits which reflects the departmental order of priority for projects in that particular fiscal year, whenever such a sequence is feasible. The lower this two-digit number may be, the higher the departmental priority that was assigned to the project on its first submission.

NOTES AND GUIDELINES

All projects are in conformity with the Master Plan except as noted.

Projects included in the Capital Improvement Program Report are approved in concept only.

Projects involving the acquisition of land or changes in sidewalk widths are subject to further review by the City Planning Commission.

Notes appearing in BOLD TYPE are policy statements approved by the City Planning Commission for inclusion in the Capital Improvement Program Report.

Projects which have previously been reviewed by the City Planning Commission for conformity with the Master Plan are identified by an individual Referral number, such as (R72.44) at the end of the project description.

All project costs shown in the program, unless otherwise noted, are in thousands of dollars.

The 'A' or 'essential' priority rating applies only to a project recommended for the first year of the program. Projects in subsequent years of the program will be re-evaluated as they move forward for inclusion in the budget year.

An appropriate general priority rating will be substituted for the designation 'hold' after further review of the proposal.

The assignment of a priority rating of 'essential' to a major capital improvement proposed for future bond financing is an endorsement only of the general concept of the proposal (City Planning Commission Resolution No. 6068).

NOTES AND GUIDELINES
Transportation Policy Group Review Criteria

The Transportation Policy Group (TPG), consisting of the Director of Public Works, the Director of Planning and the General Manager of Public Utilities, has adopted transportation policy criteria, as listed below, in order to evaluate transportation-related capital improvement and reconstruction and replacement projects. The intent has been to indicate the relationship between the City's transportation policies and expenditure for individual projects.

The City's transportation policies are continuously reviewed by TPG, which meets regularly to discuss policy and major projects in relation to policy. TPG established three broad categories of priority (highest, high, medium) for those transportation policy criteria likely to bear directly on capital improvements. The criteria were taken in most part from policies of the Transportation element of the San Francisco Comprehensive Plan; however, where the Master Plan is not specific or is silent, criteria were taken from the operating policies of the transportation operating department and other declared City objectives. TPG may propose additions or changes to these policy criteria as the needs of the City are accommodated or as the needs change.

There has been no attempt to 'rank' the criteria within each of the three priority categories, nor is the number of criteria met an indication of ranking. Therefore, there is an alphabetical rather than numerical index to the criteria (with each criterion being assigned a letter).

Each project in the Trafficways section of the Capital Improvement Program (CIP) and each project in the Municipal Railway section of the CIP has been evaluated in terms of these criteria. After each such budget year project in the CIP appears the identification letter(s) of the most relevant criterion (a) which the project was adjudged to have met (e.g.,TPG a).

POLICY CRITERIA

Highest Priority Criteria

a - Provides access by street or transit where no service previously existed when requested by those to be newly served, in order to provide more equal access to transportation facilities for all citizens.

b - Reduces danger to people and eliminates or reduces the cause of accidents to pedestrians, autos and transit vehicles.

c - Provides clearly needed maintenance for the existing street and transit systems, required to protect the public investment in existing transportation facilities.

d - Reduces auto-transit conflicts in favor of transit.

e - Improves transit operations for increased efficiency, reliability, decreased travel time, savings in money and manpower, decreased maintenance costs, and ease and convenience of transit use.

Highest priority Criteria (continued)

f - Diverts excessive traffic from residential streets.

g - Reduces congestion downtown.

h - Has a high level of community support while also fulfilling at least one other TPG-CIP policy criterion.

i - Is a portion of a larger project which has previously received legislative approval and is the City's 'local-share' commitment, or is necessary to complete or fulfill the objectives of an overall balanced transportation program; also must fulfill at least one other TPG-CIP policy criterion.

High priority Criteria

j - Expands mobility for the disadvantaged.

k - Reduces pollution and noise.

l - Improves pedestrian use, accessibility or convenience and/or the pedestrian, resident or commercial environment.

m - Supplements and/or intensifies existing transit service, particularly in the 'central' area.

n - Establishes easily identifiable transit 'centers', terminals and loading areas for convenient access and transfer.

o - Discourages non-recreational and non-local travel in and around parks and along shoreline recreation areas.

p - Develops transit to connect other major centers of activity with downtown.

Medium Priority Criteria

q - Provides transit service from residential areas to major employment centers outside the downtown.

r - Eliminates unnecessary cross traffic conflicts and improves traffic flow along major thoroughfares.

s - Provides for the role of the bicycle as transportation between and within major recreation areas, residential areas and major employment centers and for bicycle parking in conjunction with other parking facilities.

t - Increases parking for residents.

u - Increases parking for outlying neighborhood shopping areas.

v - Maintains other drpartmental facilities not directly part of the operating transportation system in order to preserve the public investment in these facilities.

FISCAL SUMMARY: PROPOSED BOND PROGRAM

CAPITAL IMPROVEMENT PROGRAM: 1982-83 THROUGH 1987-88

The following list of future bond items is submitted in fulfillment of provisions contained in Administrative Code Section 3.05

* * *

Proposed Revenue Bonds

Date of Submission	Description	Amount
1983-84	Hetch Hetchy System, Peak Power Generating Facilities	$ 100,000.0
1985-86	Port Improvements	45,000.0
	Total	$ 145,000.0

* * *

Proposed Airport Revenue Bonds

For 1982-83, the Airports Commission has proposed two revenue bond issues. A Series C issue is proposed in the amount of $110,000,000 and $140,000,000 is proposed in a Series D issue. Because the Airports Commission's bond program is in accordance with the settlement agreement between the airlines and the City, as approved by the Board of Supervisors, it is not under the purview of the Capital Improvement Advisory Committee and no recommendation is therefore submitted.

* * *

Other Possible Capital Improvements

Because of the effect of Proposition 13 on the ability of a local public agency to use general obligation bond financing for bond items not approved by the electorate prior to July 1, 1978 the following list of capital projects are subject to indefinite deferment.

Description	Amount
Fire Department, Auxiliary Water Supply System	$ 18,400.0
Emergency Operating Center	13,300.0
Street Improvements	18,000.0
Civic Center, Heating and Cooling Plant	18,200.0
Main Library	65,500.0
Zoological Gardens	10,000.0
Courts-Office Building	66,500.0
Total	$ 209,900.0

pursuant to Administrative Code Section 3.09

September 15, 1983

DOCUMENTS DEPT.
OCT 3 1983
SAN FRANCISCO
PUBLIC LIBRARY

CITY AND COUNTY OF SAN FRANCISCO

Office of the Chief Administrative Officer

TO : Mayor Dianne Feinstein and the Board of Supervisors

FROM : Capital Improvement Advisory Committee

SUBJECT: Transmittal of Annual Facilities Maintenance and Capital Improvement Programs

The annual report by the Capital Improvement Advisory Committee on the maintenance and improvement of public buildings and structures, pursuant to Section 3.09 of the Administrative Code, is herein submitted.

The report includes those maintenance and improvement projects approved by the Board of Supervisors for the 1983-84 Facilities Maintenance and Capital Improvement project budgets, and a five-year listing of future maintenance and improvement projects.

The project appropriations for 1983-84 with comparative data for 1982-83 are summarized by funding category in the following table.

Consolidated Comparative Table

Funding Category	1982-83	1983-84
General Funds*	$ 6,313,268	$ 9,675,308
Gas Tax	4,212,000	-0-
Revenue	27,384,650	38,685,200
Special Funds	10,690,356	11,052,222
TOTAL	$48,600,274	$59,412,730

* Includes Municipal Railway, San Francisco General Hospital and Laguna Honda Hospital

The Committee requests that all departments review carefully the five-year program recommendations contained in this report. Through this review process, important needs of each department can be addressed during the preparation of the 1984-85 budget to assure that the most efficient utilization of the City's limited fiscal resources is achieved.

Respectfully submitted,

Roger Boas, Chair
Capital Improvement Advisory Committee

EXPLANATION OF SYMBOLS

General Priorities

A - ESSENTIAL:
An 'essential' rating is assigned to a project which is included in the budget year of the program only. The rating is assigned to a project which would implement a declared legislative policy, is critical to the health, safety and welfare of the general public, will resolve a critical operational deficiency or will resolve a critical physical condition of the physical plant.

B - DESIRABLE:
A 'desirable' rating is assigned to a project included in the first or second year of the program. The rating is assigned to a project which is important to the general convenience, operation or condition of the physical plant, but, because of its intent, purpose or proposed timing, the project is not critical relative to the operation or condition of the physical plant.

C - ACCEPTABLE:
An 'acceptable' rating is assigned to a project which would provide for a worthwhile improvement to the physical plant, but because of its purpose or scheduling of the proposed project, it is not critical or important when considered in relationship to other program requirements, need or the City's fiscal capabilities.

D - DEFERRABLE:
A ' deferrable' rating is assigned to a project which is without full documentation as to need, justification or submission of additional data.

H - HOLD:
The 'hold' rating is assigned to a project which should be held in abeyance pending consideration of Master Plan questions or the completion of a study.

Source of Financing

a - Ad Valorem Property Taxes or Sales Taxes

Gas Taxes and Road Funds
g - Gas Tax
e - 1.04 Cent Fund
s - Road fund

r - Revenues

n - Proposed Bonds

o - Other Sources
(e.g., bequest funds, federal or state subventions)

PROJECT IDENTIFICATION NUMBER

The project identification number (P.I.N.) is designed to apply to a particular capital improvement project and only that one proposal. Its purposes are: 1) to relate a specific project to the submitting department; 2) to identify the capital improvement program in which the project will first appear; 3) to identify the fiscal year (1st through 6th year) within that program when the department seeks funding; and 4) to indicate the departmental priority rating for that project on its first submission. In subsequent capital improvement program reports the same identification number will be repeated through all phases of the the project's development and execution. A new identification number would be assigned only if the scope of a project is changed substantially upon resubmission.

The project identification number consists of eight digits arranged in three major components as shown in the following example:

500.83.101

The first component, '500' in the example, is the budget index number assigned to the requesting department.

The second component, '83' in the example identifies the year (1983-84) the particular project was initially submitted. The present report covers six fiscal years between July 1, 1983, and June 30, , and '83' appears as a constant for all initial submissions. Last year '82' was a constant for new submissions, and next year '84' will be the constant.

The third component, '101' in the example, consists of two elements without separation. The first digit, which may range from 1 to 6, indicates that fiscal year within the six-year capital improvement program when the requisitioning department asks that the project be initiated. The second element, '01' in the example, consists of two digits which reflects the departmental order of priority for projects in that particular fiscal year, whenever such a sequence is feasible. The lower this two-digit number may be, the higher the departmental priority that was assigned to the project on its first submission.

NOTES AND GUIDELINES

All projects are in conformity with the Master Plan except as noted.

Projects included in the Capital Improvement Program Report are approved in concept only.

Projects involving the acquisition of land or changes in sidewalk widths are subject to further review by the City Planning Commission.

Notes appearing in BOLD TYPE are policy statements approved by the City Planning Commission for inclusion in the Capital Improvement Program Report.

Projects which have previously been reviewed by the City Planning Commission for conformity with the Master Plan are identified by an individual Referral number, such as (R72.44) at the end of the project description.

All project costs shown in the program, unless otherwise noted, are in thousands of dollars.

The 'A' or 'essential' priority rating applies only to a project recommended for the first year of the program. Projects in subsequent years of the program will be re-evaluated as they move forward for inclusion in the budget year.

An appropriate general priority rating will be substituted for the designation 'hold' after further review of the proposal.

The assignment of a priority rating of 'essential' to a major capital improvement proposed for future bond financing is an endorsement only of the general concept of the proposal (City Planning Commission Resolution No. 6068).

NOTES AND GUIDELINES
Transportation Policy Group Review Criteria

The Transportation Policy Group (TPG), consisting of the Director of Public Works, the Director of Planning nd the General Manager of Public Utilities, has adopted transportation policy criteria, as listed below, in order to evaluate transportation-related capital improvement and reconstruction and replacement projects. The intent has been to indicate the relationship between the City's transportation policies and expenditure for individual projects.

The City's transportation policies are continuously reviewed by TPG, which meets regularly to discuss policy and major projects in relation to policy. TPG established three broad categories of priority (highest, high, medium) for those transportation policy criteria likely to bear directly on capital improvements. The criteria were taken in most part from policies of the Transportation element of the San Francisco Comprehensive Plan; however, where the Master Plan is not specific or is silent, criteria were taken from the operating policies of the transportation operating department and other declared City objectives. TPG may propose additions or changes to these policy criteria as the needs of the City are accommodated or as the needs change.

There has been no attempt to 'rank' the criteria within each of the three priority categories, nor is the number of criteria met an indication of ranking. Therefore, there is an alphabetical rather than numerical index to the criteria (with each criterion being assigned a letter).

Each project in the Trafficways section of the Capital Improvement Program (CIP) and each project in the Municipal Railway section of the CIP has been evaluated in terms of these criteria. After each such budget year project in the CIP appears the identification letter(s) of the most relevant criterion (a) which the project was adjudged to have met (e.g.,TPG a).

POLICY CRITERIA

Highest Priority Criteria

a - Provides access by street or transit where no service previously existed when requested by those to be newly served, in order to provide more equal access to transportation facilities for all citizens.

b - Reduces danger to people and eliminates or reduces the cause of accidents to pedestrians, autos and transit vehicles.

c - Provides clearly needed maintenance for the existing street and transit systems, required to protect the public investment in existing transportation facilities.

d - Reduces auto-transit conflicts in favor of transit.

e - Improves transit operations for increased efficiency, reliability, decreased travel time, savings in money and manpower, decreased maintenance costs, and ease and convenience of transit use.

Highest priority Criteria (continued)

f - Diverts excessive traffic from residential streets.

g - Reduces congestion downtown.

h - Has a high level of community support while also fulfilling at least one other TPG-CIP policy criterion.

i - Is a portion of a larger project which has previously received legislative approval and is the City's 'local-share' commitment, or is necessary to complete or fulfill the objectives of an overall balanced transportation program; also must fulfill at least one other TPG-CIP policy criterion.

High priority Criteria

j - Expands mobility for the disadvantaged.

k - Reduces pollution and noise.

l - Improves pedestrian use, accessibility or convenience and/or the pedestrian, resident or commercial environment.

m - Supplements and/or intensifies existing transit service, particularly in the 'central' area.

n - Establishes easily identifiable transit 'centers', terminals and loading areas for convenient access and transfer.

o - Discourages non-recreational and non-local travel in and around parks and along shoreline recreation areas.

p - Develops transit to connect other major centers of activity with downtown.

Medium Priority Criteria

q - Provides transit service from residential areas to major employment centers outside the downtown.

r - Eliminates unnecessary cross traffic conflicts and improves traffic flow along major thoroughfares.

s - Provides for the role of the bicycle as transportation between and within major recreation areas, residential areas and major employment centers and for bicycle parking in conjunction with other parking facilities.

t - Increases parking for residents.

u - Increases parking for outlying neighborhood shopping areas.

v - Maintains other drpartmental facilities not directly part of the operating transportation system in order to preserve the public investment in these facilities.

FISCAL SUMMARY: PROPOSED BOND PROGRAM

CAPITAL IMPROVEMENT PROGRAM: 1983-84 THROUGH 1988-1989

The following list of future bond items is submitted in fulfillment of provisions contained in Administrative Code Section 3.05.

* * *

Proposed Revenue Bonds

Date of Submission	Description	Amount
1983-84	Water System Improvements	$ 76,400.0
1984-85	Hetch Hetchy System, Peak Power Generating Facilities	$100,000.0
1985-86	Harbor Improvement Program	$ 45,000.0
	TOTAL	$221,400.0

* * *

Other Possible Capital Improvements

Because of the effect of Proposition 13 on the ability of a local public agency to use general obligation bond financing for bond items not approved by the electorate prior to July 1, 1978 the following list of capital projects are subject to indefinite deferment.

Description	Amount
Fire Department, Auxiliary Water Supply System	$ 18,400.0
Emergency Operating Center	$ 13,300.0
Street Improvements	$ 18,000.0
Civic Center, Heating and Cooling Plant	$ 18,200.0
Main Library	$ 65,500.0
Zoological Gardens	$ 10,000.0
Courts-Office Building	$ 66,500.0
TOTAL	$209,900.0

* 1983-84 *	1984-85 *	1985-86 *	1986-87 *	1987-88 *	1988-89 *

1. Various locations, construct security fencing and gates
557.77.209 Priority: C Funding Code: a
* * * 44.5* * *

2. Building 3, install tile on morgue walls
557.78.203 Priority: C Funding Code: a
* * * 11.0* * *

3. Medical Center, Elevator No. 3, complete installation
557.77.305 Priority: C Funding Code: a
* * * * 225.8* *

4. Medical Center, Elevator No. 4, complete installation
557.77.306 Priority: C Funding Code: a
* * * * 225.8* *

5. Medical Center, Elevator No. 14, complete installation
557.77.307 Priority: C Funding Code: a
* * * * 203.2* *

6. Various buildings, install lawn sprinkler systems
557.78.301 Priority: C Funding Code: a
* * * * 13.2* *

7. Medical Center, relocate Clinical Study Center into Medical Center
557.80.201 Priority: C Funding Code: a
* * * * 30.0* *

FINE ARTS MUSEUMS

8. Legion of Honor and M. H. de Young Museums, energy conservation projects (revenue transfer)
621.83.103 Priority: A Funding Code: r
* 234.0* * * * *

9. M. H. deYoung, tower, provide seismic modifications
621.74.201 Priority: C Funding Code: a
* * 306.1* * * *

10. Legion of Honor, Court of Honor, prepare study and plans for underground exhibit and storage area
621.74.402 Priority: C Funding Code: a
* * * 40.3* * *

ASIAN ART MUSEUM

11. Various areas, install fire alarm and security system (Phase 2) ($212,500 previously appropriated)
622.83.101 Priority: A Funding Code: a
* 255.8* * * * *

12. Emergency air conditioned storeroom, new construction
622.71.106 Priority: C Funding Code: a
* * 198.6* * * *

13. Passenger-freight elevator, convert to passenger use
622.73.102 Priority: C Funding Code: a
* * * 117.3* * *

14. Freight Elevator, new construction
622.74.101 Priority: C Funding Code: a
* * * * 389.4* * *

LIBRARY

1. Main Library, Periodical Room, install ventilating system (Phase 2)
631.80.101 Priority: A Funding Code: a
* 7.7* * * * *

2. Main Library, Rare Books and San Francisco History Room, install gas operated fre extinguisher system
631.78.104 Priority: A Funding Code: a
* 331.5* * * * *

3. Main Library, freight elevator, handicapped modifications
631.83.101 Priority: B Funding Code: a
* * 15.0* * * *

4. Main library, provide electrical outlets
631.77.105 Priority: C Funding Code: a
* * 5.5* * * *

5. Main library, various areas, improve lighting
631.77.108 Priority: C Funding Code: a
* * 26.0* * * *

6. Main Library, 2nd floor and rotunda areas, install solid panels in skylight areas; provide lighting
631.78.101 Priority: C Funding Code: a
* * 165.4* * * *

MARINA SMALL CRAFT HARBOR

7. Marina Green, install all-weather jogging path
648.83.102 Priority: A Funding Code: r
* 50.0* * * * *

8. Various locations, install mooring pile extensions
648.83.103 Priority: A Funding Code: r
* 67.0* * * * *

RECREATION AND PARK - ZOOLOGICAL GARDENS

9. Incinerator, construct enclosure
652.78.201 Priority: C Funding Code: a
* * 30.0* * * *

10. Equipment and materials storage building, construction
652.82.201 Priority: C Funding Code: a
* * 175.0* * * *

RECREATION AND PARK - OPEN SPACE ACQUISITION DIVISION

11. High need neighborhoods, land acquisition
654.77.102 Priority: A Funding Code: o
* 2750.0* * * * *

12. Waterfront, hilltop and other locations, land acquisition
654.77.103 Priority: A Funding Code: o
* 719.0* * * * *
